## Changing Places Toilets

Changing Places toilets are specially designed for people with complex and multiple disabilities who require the help of one or two assistants.

PAMIS, through the Changing Places Consortium and along with many other organisations has been campaigning for these toilets to be provided by local authorities in all towns and cities across Scotland. In February 2009, Changing Places toilets were included in the British Standards BS8300, this means that they should be included in all new larger buildings and complexes such as:

- Large railway stations & airports
- Sports & leisure facilities
- Cultural centres such as concert halls and art galleries
- Shopping centres
- Health facilities such as hospitals

In this directory there are details of **xxx** Changing Places toilets in Scotland, not all of these are fully compliant with the new British Standard, BS 8300: 2009, and so cannot be fully registered but they all have a height adjustable changing bench and a hoist. If the facility does not have all the components required to be registered as a Changing Places toilet, then there is an explanatory note.

We are reliant on local authorities, professionals, families, and carers for information on these toilets. If you know of a Changing Places toilet that is not in this leaflet please contact us. Also if you use one of these toilets and it is not up to the standard you would expect, please let us know.

t: 01382 385 154 or [pamis@dundee.ac.uk](mailto:pamis@dundee.ac.uk).

As many of the Changing Places listed overleaf are in resource centres and sports centres we would advise you to contact them to check availability and opening hours before you visit.

Many of the Changing Places toilets require a RADAR key to access them, these are available from [www.radar.org.uk](http://www.radar.org.uk).

## An example of a Changing Places toilet

## Requirements of a Changing Places Toilet

- an adult sized, height adjustable changing bench which is either wall mounted or free standing
- a ceiling tracking or a mobile hoist
- a peninsular (centrally placed) toilet
- a privacy screen or curtain
- a large bin for pads
- an emergency alarm
- a paper roll
- a non slip floor
- adequate space for a disabled person when they are not in their wheelchair, their wheelchair and one or two carers
